

**YOU'RE INVITED!**  
An event where business  
opportunity is served on a platter.

**CANADA BEEF, INC. AND THE ACF CHEFS OF  
MILWAUKEE PRESENT:**

**CANADIAN BEEF  
CULINARY OPPORTUNITIES  
FROM NORTH OF THE BORDER**

**ACF Approved for Continuing Education Hours (CEH)**

We invite you to join us **January 30, 2012** at Waukesha County Technical College for this informative seminar and *live beef fabrication & cutting demo* on Canadian beef and the solutions it offers foodservice operators in the Milwaukee area.

Canada and the US enjoy the world's largest trading relationship and Canadian beef plays an important role in the foodservice industry.

The team will present information on the Canadian quality grading and food safety systems. Exciting new beef cut options, developed to meet the changing needs of restaurant guests and contribute to restaurant profitability, will also be discussed. Canadian beef is a strong choice for the US market and our presentation will help you understand why you should consider it for your operation.

Included in the session are resource materials to take away that feature technical information on beef and its application on the menu.

This education session will be followed by our traditional January Dinner Meeting, including the installation of officers. Reservations will be limited to the first 60 attendees, please make your reservations today!

When making reservations please note if you will be attending full session (4:00 p.m.) or dinner meeting only (5:30 p.m.). Our hope is you can make the entire session, as this promises to be a great educational opportunity. ACF members, please be certain to sign the official registration sheet, which will be submitted to National for your CEH's.
